

Join a team of health professionals dedicated to providing the best fitness, preventive medicine, and injury management services for individuals and corporate clients. If you share our passion for improving the health and well-being of others and believe in providing the best experience for those you serve, we invite you to explore this career opportunity.

BaySport Mission Statement

"To provide simply the best fitness, cardiovascular disease prevention and injury management services to individuals and corporate clients."

Through a long-term commitment to our mission, our employees, clients, and vendors will know us as a company that stands by all promises, surpasses all competitors in the desire to serve, improves the quality of life of program participants, and possesses financial stability.

Health Screening Team Member

BaySport Preventive Medicine Division | San Jose, CA, United States

About Us

BaySport is a leading provider of preventive medicine, physical therapy, and corporate health services. With over 100 corporate clients, BaySport has developed many clinic and worksite based programs aimed at improving employee health and reducing employer health costs. From corporate wellness center management to cholesterol screening services to executive physical examinations to injury management services, the BaySport staff is able to help participants return to activity, identify health risks, and make lifestyle adjustments to reach their health goals.

BaySport's Preventive Medicine division delivers health screening (or biometric screening) services to corporate clients in California. While most testing locations are in the San Francisco Bay Area, our team does support clients in Southern California, as well. In 2015, we tested over 12,000 program participants.

Team Member Role and Responsibilities

The BaySport Health Screening Team Member supports our worksite health screening programs. The typical health screening includes a blood test for lipids and glucose, blood pressure, BMI (height/weight), and a follow-up consultation of test results and specific recommendations for health improvement. We are looking for team members to play an active role in our upcoming screening events, in particular, to physiologically test program participants (blood pressure and BMI), and counsel program participants on the basis of the tests plus make recommendations to reduce health risks through diet and exercise. Current Health Screening Team Members include Clinical Exercise Physiologists, Registered Dietitians, Nurses, Wellness Specialists, and those currently in a health-related bachelor's program. This is a part-time per diem position.

The ideal candidate is proficient in one or more of these skills:

- Proven experience working in a corporate health screening program that targets cardiac risk reduction strategies
- Proficiency in manual blood pressure measurement
- Experience leading fitness classes, training clients or working in a fitness environment
- Ability to foster a team approach for success of the program
- Thorough understanding of cardiac risk factors and lifestyle modifications to reduce risks
- Phlebotomy certification if working with blood sample acquisition

Positions Open Include:

- Blood Pressure measurement and consultation
- Height, Weight, and BMI measurement and consultation
- Phlebotomy – blood sample acquisition with Alere (Cholestech)
- Results Consultation – Covering all lipid testing, blood pressure, and BMI

Responsibilities include:

- Physiological testing of program participants
- Understand the relationship of health enhancement and the benefit for a corporate client
- Excellent patient interaction skills
- Understanding of HIPPA guidelines
- Take initiative by adding their particular strengths to the position

Join our health screening team by sending your resume with cover letter to job@baysport.com.
